Relaxing rest

A very important element of visit a SPA, wellness or fitness center is a proper rest. After the tension comes relaxation, the body and mind sounds in the same harmonious composition, allowing you to forget about everyday life.

The Aciv Couch is a wonderful relaxing heated lounger with massage function. Warmed to the body temperature and ergonomically fit to the shape of the human body, provide the highest quality comfort. As an extension of the wellness and fitness offer, we offer a modern relaxation couch.

Safety instruction

- do not use the device near water sources (taps, water reservoirs, etc.);
- Do not use a device connected to an extension cord that has not been tested and has no ground;
- Do not use the device if the controller or its cable is damaged or not working properly. In this case, contact the service center;
- if your health condition raises any doubts, consult your doctor before using the product;
- people with a pacemaker, consult a doctor before use;
- do not use the heating option for no longer than 15 minutes in one session. Prolonged use may cause the mat to overheat, which will shorten its useful life;
- do not use the device on places with swelling, inflammation or eczema;
- the use of the device cannot be a substitute for medical care;
- you must not stick needles / pins into the mattress;
- before cleaning, switch off the device, allowing it to cool down;
- device should only be cleaned with a soft sponge.
