Before starting to train

Training should begin with a warm-up. Next pass to aerobic exercises, and end up with loosening. Warming up prepares the body for exercises. Upon completion of training, repeat the exercises to relax the muscles after force exercise. Below are examples of exercises to warm up and relax:

1

HEAD TURNS

Move your head to the right and left, to feel a gentle stretch of neck muscles. Then move your head forward and backward, touch the chest with your chin, and tilt the head back. Repeat the exercise several times.

2

ARMS INCLINATIONS

Lift your right arm towards your ear then lift your left arm. Repeat the exercise several times.

3

STRETCHING

Reach as high as you can with your hands.

Alternately reach up with your left and right hand.

Repeat the exercise several times with the right and left hand.

4

QUADRICEPS STRETCH

Rest one of your hands on the wall to steady and pull your leg to the buttocks, as shown in the figure. Repeat the exercise for both legs.

5

STRETCHING THE ACHILLES TENDON

Put two hands against the wall and lean forward. With one leg make a stride and gently push your body. Repeat the exercise several times on both legs.

6

BENDS

Touch your toes with your hands. During the bends, keep your knees straight, shoulders and arms relaxed. Repeat the exercise several times.

7

ABDUCTOR STRETCHING

Sit on the ground, put your feet together, and try to touch the floor with your knees. Repeat the exercise several times.

8

HAMSTRING STRETCHING

Sit on the ground, straighten one leg, and bend the second one. Reach out a hand towards the extended leg and hold on to this position for a few seconds. Relax and repeat on the other leg.
